Solutions for Government.

<u>**Tables</u>** – Tables are accessed through the document editor and are a mixture of Microsoft Word and Microsoft Excel functionality. This allows Excel-like data entry and use of formulas yet maintains complete control over how the tables are formatted and exported for publication. Within TRS, formulas are red and DataLinks are green. It is important to note that upon export, those amounts will be black font. (Images of a table and the table opened within the document editor are shown below.)</u>
